Post Workshop Activity

Multimodal Storytelling Challenge

Use generative AI to transform the given Plaksha story into a multimedia experience!

What to Do:

1. Create AI-generated images that bring the story to life. (Around 2-3 images capturing the theme and representing the focal point of the story)
2. Add audio elements—narration, sound effects, or voice modifications to enhance the fun. (optional, but will earn you extra points)
3. Blend it all into a short multimedia presentation.

Submission Deadline: Midnight
